

**EAA CHAPTER 309
MEMBERSHIP MEETING MINUTES
FEBRUARY 19, 2007**

The meeting was convened by President Bill Repucci at 7:05 PM on February 19, 2007, at the Quaker Steak & Lube restaurant, 1601 E. Woodlawn Rd., Charlotte, NC 28209, and commenced with self-introductions by attending members and the presentation of guests.

Following these introductions, it was reported that the chapter dues are due and that the chapter hanger project is still proceeding smoothly.

This meeting was originally planned to be a meeting at Fred Darnell's house to view his Murphy Super Rebel project (according to the Murphy company, the Rebel is a fun flying, two seat STOL aircraft capable of operating from wheels, floats or skis featuring all metal construction, pre-formed and pre-punched parts making for easy, straightforward construction). However, there was an illness in Fred's family, and the presentation of Fred's project was postponed. Consequently, the meeting was held at the Quaker Steak restaurant without a formal presentation topic.

Due to the lack of a formal topic for presentation, the meeting was devoted to informal presentations by the members present on various topics of interest. Because of the informal nature of these matters, no records were made for the chapter minutes.

Dinner was consumed and the meeting ended.
